# Australian Cherries

---

**Cherry Growers Australia Inc** is a non-profit industry association representing Australia's cherry growers from all regions.

The Board of CGA is made up of grower representatives from each growing State and they give their time voluntarily to focus on activities that will establish for the cherry industry in Australia a level of viability, stability and confidence. CGA strives to keep growers informed through regular communication, field days, workshops and conferences. There is a close association with Horticulture Innovation Australia and various research groups and State Associations.

We are pleased to now be able to offer industry stakeholders and associated groups the opportunity to participate more closely with industry and CGA activities by becoming an Associate Member of the organisation.

As part of being an Associate member, you will -

- Receive all mail outs and other industry communications
- Enjoy discounted advertising rates in CGA's new industry publication "Australian Cherries", which commenced in October 2011 and has 4 editions per year.
- Opportunity to have flyers included in the CGA industry publication.
- Opportunity to provide editorial associated with your advertising commitment.
- Have a link to your company's website from the CGA website. CGA launched their new website in August 2012, which offers even better exposure to Associate Members, with over half a million hits from the beginning of the 2015 year and 40,000 unique visitors.

The industry is experiencing an exciting development phase and production is expected to increase significantly in the next five years - be a part of it and send in your Associate Membership form today.
